The New Somerset and Shawnee R.R. A Part of the Hocking Valley System. Logan's Opportunity.

The Hocking Valley Railway has bought the branch of the B. & O. Railway running from Shawnee to Newark.

Some years ago a move was on foot to induce the B. & O. to bring the road from Shawnee to Logan. Several meetings of our citizens were held in the Sentinel office, and which representatives of the Board were present. The citizens of Logan, at that time agreed to put up a station at foot of Hunter street, and contribute in several ways to secure the road.

The scheme was abandoned for the reason, that the only accessible route from Oreville to Logan was over that part of the Hocking Valley track, and the H. V. would not lease. From Shawnee to Oreville down the Monday Creek is a level lay of land. To make connection from Logan to Shawnee, thence north to Newark, requires only the building of the few rails, along the Monday Creek Valley.

A railroad connection of Logan to this new branch division would give us another outlet and inlet for trade.

It is a matter which should command the attention of our board of Trade.

Logan has the opportunity to advance her interests, will catch with a quick hand the golden ball of opportunity.

Public School Benefit.

On next Saturday evening, the Colonial Moving Picture Co. will give an exhibition at the Opera House, proceeds for benefit of our schools. Further particulars next week.

THE FROG

ITS STATUS DECLARED BY THE GOVERNMENT. HE IS A BIRD AND HAS TARIFF PROTECTION

Consternation in Tonybarleytown—Confusion Among the Lucullus Feasters in the Queen City.

By a recent decision of the Interior Department at Washington, The Frog has been declared a Bird and frogs imported from Canada or any other foreign country are subject to the tariff duty imposed on birds.

The inhabitants of Gander creek, and the squatters around the ponds surrounding the hamlet of Tonytown, sometimes called McArthur, who have a livelihood from the frog industry, are in a panic. The bull frog chorus not bird songsters is their vesper melody.

The frog is currency in trade and the barefoot boy gets his peanuts and spring marbles from the 'ketch' on his string. The editors from Frogfield get the grey matter brain power from the nibble of a donated leg.

The frog is the McArthur King of beasts; the Bird of beauty the nourishment of her statesmen; the relish of the Sybarites.

The order of the department making him a Bird upsets things, and precipitates a panic in Frog Town.

The Zoophagi of Logan the best patrons of the McArthur industry, Gen. Weldy, Conductor Jim Smith, Judge Wright, Arch Bishop Sands, Count Von Yerges, and others who might be named, who revel in the relish of an amphibious limb are in dire distress, and do not know how to sustain against grip and observe the regulations of Lent. If the frog is a bird he is flesh. So eat him a bird is to eat flesh and fish at the same time which is against the decreata.

Hence the Frog industry, although Tariff protected is likely to perish for want of patrons.

It is reported that Si Allen of Grosvenor town who holds an able sand bank for hospital purposes, failing to realize on this proposition, will engage in raising the Bird frog, there being no impediment to adapt or adopt anything to an Athens statesman. This alarms the McArthur promoters. Admiral Tony Barleou will launch his good ship Raschal, for some time in dry dock in his wasp eaten barn and navigate among the bull rushes and inspect the bull frog crop. Dan Will will reduce discounts. Dennis Steele will rush fish hooks on the market regardless of cost.

The editors will observe the proper and customary caution to say nothing about the matter at all.

In the meantime we hope the Gander Creek Birds will continue to multiply, that his song will be a solace and his leg a relish and that our Lucullus of Logan can eat him,

The Welman, Steinman & Company.

bird though he is, let the decreata be what they may.

Of course we are not surprised at the ruling of the department. This administration is liable to rule that the moon is made of green cheese, that Tony Barleou is a reincarnated Apollo Belvidere, and that Editor Taylor is precursor of a new educational dispensation.

A Vinton County Sinner.

Here, according to late country correspondence is the way a Vinton county man confessed at a revival: He had been pressed to repent and finally got up and said, 'Dear friends I feel the spirit moving in me to talk and tell what a bad man I have been, but I can't do it while the grand jury is in session.' 'The Lord will forgive' shouted the preacher. 'I guess that is right' said the penitent, 'but he ain't on the grand jury.'
